

**CONVENTION ON LONG-RANGE TRANSBOUNDARY AIR POLLUTION
Cooperative Programme for Monitoring and Evaluation of the Long-range
Transmission of Air Pollutants in Europe, EMEP**

**4TH MEETING OF THE
TASK FORCE ON MEASUREMENT AND MODELLING**

**International University Menendez Pelayo (UIMP),
Plaza del Carmen, 4, Palacio Pineda,
Valencia, Spain.**

Wednesday 9th – Friday 11th April 2003

Dear Colleagues and Friends

The next meeting of the EMEP Task Force on Measurement and Modelling will be held at the International University Menendez Pelayo (UIMP) in the centre of Valencia, Spain. The meeting is being kindly hosted by Professor Millan Millan of CEAM.

The main agenda items will be:

- Presentation of the City-Delta project
- EMEP Assessment Report
- EMEP Monitoring Strategy and Measurement Programme 2004-2009
- Scientific and Technical Review of the EMEP Eulerian Model
- Discussion of Technical Reports by MSC-E on POPs and Hg
- Ozone Pollution in the Mediterranean Region

I would gratefully appreciate hearing any further suggestions for agenda items. Please register for the meeting by faxing the completed registration form to both Liisa Jalkanen at the WMO and to myself at the Met Office.

You are kindly requested to make your own travel arrangements and hotel bookings. The local organiser has made block bookings for us at three hotels. Please make your own bookings using the attached hotel booking form **before March 15th** because Valencia can be busy during April. A limited amount of funds are available from the WMO for participation and requests should be made directly to Liisa Jalkanen at the WMO. A small charge of 27 euros will be made to cover local expenses for the organisation of the meeting.

I do hope that you will be able to participate in the meeting. If you have any questions, please contact Liisa, Henning or myself.

All the Best

Dick Derwent
